

CAT5E PATCH CORD 100MHZ 4 FOOT WHITE,Flash 2M X 16 70ns

Manufacturers	Microchip Technology, Inc
Package/Case	TFBGA-48
Product Type	Memory
RoHS	Rohs
Lifecycle

General Description

The SST39VF3201C is 2M x16 CMOS Multi-Purpose Flash Plus (MPF+) manufactured with SST's proprietary, high-performance CMOS SuperFlash technology. The split-gate cell design and thick-oxide tunneling injector attain better reliability and manufacturability compared with alternate approaches. The SST39VF3201C write (Program or Erase) with a 2.7-3.6V power supply. These devices conform to JEDEC standard pin assignments for x16 memories.
