Ovaga

Ethernet Controller, 100 Mbps, IEEE 802.3, IEEE 802.3u, IEEE 802.3az, 1.62 V, 3.6 V, QFN, 32 Pins

Manufacturers	Microchip Technology, Inc
Package/Case	QFN-32
Product Type	Interface ICs
RoHS	Rohs
Lifecycle

Please submit RFQ for LAN8741A-EN or Email to us: sales@ovaga.com We will contact you in 12 hours.   RFQ

General Description

Microchip's LAN8741A/LAN8741Ai are the latest generation of low-power, 10/100 Fast Ethernet PHYs featuring Energy Efficient Ethernet (IEEE 802.3az) as well as system sleep modes for improved power savings. The LAN8741A/LAN8741Ai feature a deterministic loop back delay, assuring real-time system performance. These devices are available in both commercial (0° to 70°C) and industrial (-40° to 85°C) temperature ranges. The LAN8741A/LAN8740Ai are well-suited for Consumer, Embedded and Industrial applications. Additionally, these devices support auto-negotiation, auto-polarity correction, HP Auto-MDIX† and are compliant with IEEE 802.3 and 802.3u standards. Microchip also offers its complimentary and confidential LANCheck® online design review services to customers who select our products for their application design-in.*

†HP Auto-MDIX eliminates the need for special "crossover" cables when connecting LAN devices together.

*The LANCheck online design review service is subject to Microchip's Program Terms and Conditions and requires a myMicrochip account.

Features

Highlights

Single-Chip Ethernet PHY

Comprehensive flexPWR® technology

Flexible power management architecture

LVCMOS variable I/O voltage range +1.6V to +3.6V

Integrated 1.2V regulator with disable feature

Energy Efficient Ethernet (IEEE 802.3az)

Deterministic latency

Uses a low-cost 25MHz crystal for RMII mode to drive 50MHz output

HP Auto-MDIX support

Supports commercial (0° to 70°C) and industrial (-40° to 85°C) temperature ranges

32-pin, 5x5mm and 24-pin, SQFN, RoHS-compliant packages

Target Applications

Set-top Boxes

DVRs/PVRs

Digital TVs/iPTVs

Printers
IP and Video Phones

Industrial

Embedded/Telecom

Test/Measurement Instrumentation

Wireless Access Points

Power over Ethernet (PoE)
