

Linear Battery Charger Controller Li-Ion/Li-Polymer 10-Pin DFN EP T/R

Manufacturers	Microchip Technology, Inc
Package/Case	DFN-10
Product Type	Power Management ICs
RoHS	Rohs
Lifecycle

General Description

The MCP73213 is a dual cell, highly integrated Li-Ion battery charge management controller for use in space-limited and cost-sensitive applications. The MCP73213 can accept an absolute maximum of 18V input and provides a 13V overvoltage protection. The output current can be programmed to be between 130 mA and 1100 mA. The MCP73213 is specified over the ambient temperature range of -40°C to +85°C and is available in a 10 lead, 3x3 mm DFN package.
