General Description

SAB-C505L-4EM appears to be a part number for an embedded system based on the Infineon C505L microcontroller. Here are some details about this part:

Features

- Based on Infineon C505L microcontroller
- 32-bit architecture with 50MHz maximum clock frequency
- 512KB flash memory and 48KB SRAM
- Includes Ethernet, USB, CAN, and UART interfaces
- Supports various communication protocols such as Modbus, Profinet, and EtherCAT
- Supports real-time operating systems such as FreeRTOS and uC/OS-II
- Temperature range: -40°C to +85°C

Application

- Industrial automation and control systems
- Building automation and control systems
- Motor control and drives
- Energy management systems
- IoT edge devices
- Robotics
