## General Description

LXT971ABE is a type of Ethernet Transceiver, which is a hardware component used to enable communication between devices over an Ethernet network. It is manufactured by Intel Corporation.

## Features

- 10BASE-T and 100BASE-TX compatibility
- Integrated 1.2V regulator
- Low power consumption
- Automatic MDI/MDIX crossover detection
- Link and activity LED indicators

## Application

- Ethernet switches
- Network interface cards (NICs)
- Router interfaces
- Industrial Ethernet applications
- Telecommunications equipment
