General Description

MAX3387ECUG is a specific integrated circuit (IC) manufactured by Maxim Integrated, which is a part of their MAX3387 family of multi-protocol transceivers. The MAX3387ECUG is a quad transceiver with RS-232, RS-485, and RS-422 compatibility.

Features

- It has four transceiver channels, each with an independent set of drivers and receivers.
- It is compatible with RS-232, RS-485, and RS-422 serial communication standards.
- It supports data rates up to 1 Mbps.
- It has a wide operating voltage range, from 3V to 5.5V.
- It has a low-power shutdown mode.
- It is available in a compact 48-pin TQFN package.

Application

- Industrial automation and control systems
- Point-of-sale terminals
- Medical equipment
- Test and measurement equipment
- Data acquisition systems
- Networking equipment
